A Treatise on the Nature, Economy, and Practical Management, of Bees; In Which the Various Systems of the British and Foreign Apiarians Are Examined, ... the Lives of the Bees: Containing Also
Robert Huish

Excerpt from A Treatise on the Nature, Economy, and Practical Management, of Bees; In Which the Various Systems of the British and Foreign Apiarians Are Examined, and the Most Improved Methods Laid Down for Effectually Preserving the Lives of the Bees: Containing Also an Accurate Description, Illustrated by Plates, of the Hives Invented by Lombard, Ducouedic, Huber, Vicat, L'abbé Della Rocca, and Other Foreign Apiarians; And of a Newly Invented Hive for the Purpose of Depriving the Bees of Their Honey

Notwithstanding the numerous Works which have appeared in this Country, and in France and Germany in particular, relative to the Management of Bees, still, the foundation stone only may be said to be laid towards an accurate and distinct knowledge of the internal Economy of those surprising Insects. Many prejudices require to be extirpated, and an entirely new feature given to this interesting part of Agricultural Science, before those national advantages, with which it is so pregnant, can be derived from it. The Natural History of Bees, and the method of managing them, have, it is true, exercised the skill and ingenuity of both ancient and modern Authors of every class and of every age.
