A Scientific Commentary on Genesis 1-11

Dr Alan P. Dickin

A Scientific Commentary on Genesis 1-11 Dr Alan P. Dickin

The first chapters of Genesis continue to be a great enigma to the modern world. However, scientific evidence can place real constraints on what these stories originally meant, both as the inspired word of God and a record of the real experiences of ancient peoples. Geological, archaeological and literary evidence shows that the biblical account is consistent with a setting in the earliest history of Mesopotamian civilization. Starting from a scientific viewpoint, this commentary provides a systematic analysis of the meaning of the first eleven chapters of Genesis in a Mesopotamian context.
