Denying History: Who Says the Holocaust Never Happened and Why Do They Say It? Michaël Shermer, Alex Grobman

Denying History takes a bold and in-depth look at those who say the Holocaust never happened and explores the motivations behind such claims. While most commentators have dismissed the Holocaust deniers as antisemitic neo-Nazi thugs who do not deserve a response, historians Michael Shermer and Alex Grobman have immersed themselves in the minds and culture of these Holocaust "revisionists." They have conducted personal interviews with the deniers, read their literature, monitored their Web sites, attended their conferences, engaged them in debate, and even traveled around Europe to conduct research at the Nazi extermination camps. Uncovering a complex social movement, the authors go much deeper than ever before in not only trying to understand the motives of the Holocaust deniers, but also refuting their points one by one. In the process, they show how we can be certain that the Holocaust happened and, for that matter, how we can confirm any historical event.
