Project Leadership, the classic, best-selling textbook originally by Wendy Briner, Michael Geddes and Colin Hastings, anticipated so many of the changes in approaches to project management that are now regarded as mainstream - not least the focus on behaviours. The Third Edition by experts Sarah Coleman and Donnie MacNicol has been substantially rewritten, introducing new material and experience reflecting the transformation that has taken place in the world of projects and leadership. The authors put considerable emphasis on a set of core capabilities around the themes of vision and strategy, relationship building, communication and engagement. The book also focuses on building personal and organizational project leadership capability including models, tools and diagnostics drawing on experiences of working with projects and organizations from multiple sectors and across the globe.
