Following the Sun : A Practical Guide to Egyptian Religion Sharon LaBorde

Kemeticism, the revival of the ancient Egyptian religion, is a growing yet still poorly understood form of Paganism. The number of Kemetics online has more than doubled in the last decade, yet nearly all of the books addressing Kemeticism or Egyptian Paganism are written from an outside perspective, using outdated sources. To address this disparity, *Following the Sun* is the first book to unite 21st-century Egyptological research with the real-life experiences of modern Egyptian Pagan and Kemetic practitioners, covering such useful topics as Egyptian ethics; how to build and consecrate a Kemetic altar; Egyptian deities and holidays; and a historical look at major controversies such as ethnicity in ancient Egypt and the connection between Atlantis and the Sphinx. No longer will those seeking to understand and experience Egyptian religion for themselves be limited to challenging academic sources, as this book presents Egypt and her gods in an accessible, engaging manner the average reader can enjoy.
