Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing)

Klaus Hoermann, Markus Mueller, Lars Dittmann, Joerg Zimmer

Automotive SPICE is a framework for designing and assessing software development processes. If implemented effectively, it leads to better processes and better product quality. It also helps to improve the cooperation among complex supply chains and between globally distributed development and engineering centers.

Automotive SPICE has been derived from the ISO/IEC 15504 standard, also known as SPICE. It has been developed under the Automotive SPICE initiative by the consensus of several major car manufacturers such as Audi, BMW, Ford, Fiat, Daimler, Porsche, Volkswagen, and Volvo. Today, Automotive SPICE has become a standard in the international automotive industry.

This book is written as a guide to help the reader understand and interpret the requirements of this standard and to implement Automotive SPICE in a real world application environment. It is written for engineers, practitioners, managers, and project managers who need practical guidance in applying or implementing the Automotive SPICE framework in his/her company. Important topics, such as traceability, functional safety (IEC 61508), and the relationship between Automotive SPICE and CMMI are given particular attention.

This book is a definite must for practitioners involved in implementing Automotive SPICE in process improvement programs; a welcome aid for any assessor looking for clear, consistent, and constructive rating guidelines; and an invaluable resource for anyone concerned with engineering development processes in the automotive industry.

From reader reviews:

Araceli Burns:

With other case, little people like to read book Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing). You can choose the best book if you'd prefer reading a book. Given that we know about how is important the book Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing). You can add information and of course you can around the world by way of a book. Absolutely right, because from book you can know everything! From your country right up until foreign or abroad you may be known. About simple thing until wonderful thing you may know that. In this era, we can easily open a book or perhaps searching by internet product. It is called e-book. You should use it when you feel bored to go to the library. Let's study.

Keven Peterson:

Reading a book to be new life style in this calendar year; every people loves to read a book. When you learn a book you can get a wide range of benefit. When you read books, you can improve your knowledge, mainly because book has a lot of information into it. The information that you will get depend on what sorts of book that you have read. If you would like get information about your study, you can read education books, but if you want to entertain yourself you are able to a fiction books, this kind of us novel, comics, and soon. The Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing) will give you a new experience in reading through a book.

Rebecca Dryden:

That guide can make you to feel relax. That book Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing) was bright colored and of course has pictures on there. As we know that book Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing) has many kinds or variety. Start from kids until teenagers. For example Naruto or Detective Conan you can read and believe that you are the character on there. Therefore not at all of book are usually make you bored, any it offers up you feel happy, fun and unwind. Try to choose the best book for you and try to like reading that.

Carolyn Wilson:

Reserve is one of source of knowledge. We can add our knowledge from it. Not only for students but also native or citizen require book to know the change information of year to help year. As we know those publications have many advantages. Beside most of us add our knowledge, also can bring us to around the world. Through the book Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing) we can have more advantage. Don't you to be creative people? To get creative person must prefer to read a book. Just simply choose the best book that acceptable with your aim. Don't

possibly be doubt to change your life at this time book Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing). You can more pleasing than now.
