Machine Learning With R Cookbook - 110 Recipes for Building Powerful Predictive Models with R

Yu-Wei, Chiu (David Chiu)

Key Features

- Apply R to simplify predictive modeling with short and simple code
- Use machine learning to solve problems ranging from small to big data
- Build a training and testing dataset from the churn dataset, applying different classification methods

Book Description

The R language is a powerful open source functional programming language. At its core, R is a statistical programming language that provides impressive tools to analyze data and create high-level graphics.

This book covers the basics of R by setting up a user-friendly programming environment and performing data ETL in R. Data exploration examples are provided that demonstrate how powerful data visualization and machine learning is in discovering hidden relationships. You will then dive into important machine learning topics, including data classification, regression, clustering, association rule mining, and dimension reduction.

What you will learn

- Create and inspect the transaction dataset, performing association analysis with the Apriori algorithm
- Visualize patterns and associations using a range of graphs and find frequent itemsets using the Eclat algorithm
- Compare differences between each regression method to discover how they solve problems
- Predict possible churn users with the classification approach
- Implement the clustering method to segment customer data
- Compress images with the dimension reduction method
- Incorporate R and Hadoop to solve machine learning problems on Big Data

About the Author

Yu-Wei, Chiu (David Chiu) is the founder of Largit Data. He has previously worked for Trend Micro as a software engineer, with the responsibility of building big data platforms for business intelligence and customer relationship management systems. In addition to being a start-up entrepreneur and data scientist, he specializes in using Spark and Hadoop to process big data and apply data mining techniques for data analysis.

Table of Contents

1. Practical Machine Learning with R
2. Data Exploration with RMS Titanic
3. R and Statistics

4. Understanding Regression Analysis
5. Classification (I) Tree, Lazy, and Probabilistic
6. Classification (II) Neural Network and SVM
7. Model Evaluation
8. Ensemble Learning
9. Clustering
10. Association Analysis and Sequence Minin
11. Dimension Reduction
12. Big Data Analysis (R and Hadoop)

Download and Read Free Online Machine Learning With R Cookbook - 110 Recipes for Building Powerful Predictive Models with R Yu-Wei, Chiu (David Chiu)

From reader reviews:

David Hernandez:

The particular book Machine Learning With R Cookbook - 110 Recipes for Building Powerful Predictive Models with R will bring one to the new experience of reading some sort of book. The author style to clarify the idea is very unique. In case you try to find new book to read, this book very appropriate to you. The book Machine Learning With R Cookbook - 110 Recipes for Building Powerful Predictive Models with R is much recommended to you you just read. You can also get the e-book from official web site, so you can more easily to read the book.

Robert Thompson:

People live in this new morning of lifestyle always try and and must have the free time or they will get great deal of stress from both way of life and work. So , if we ask do people have time, we will say absolutely indeed. People is human not a robot. Then we consult again, what kind of activity are there when the spare time coming to an individual of course your answer will certainly unlimited right. Then do you ever try this one, reading ebooks. It can be your alternative throughout spending your spare time, often the book you have read is actually Machine Learning With R Cookbook - 110 Recipes for Building Powerful Predictive Models with R.

Paul Andrews:

Machine Learning With R Cookbook - 110 Recipes for Building Powerful Predictive Models with R can be one of your starter books that are good idea. We recommend that straight away because this e-book has good vocabulary that will increase your knowledge in vocab, easy to understand, bit entertaining but still delivering the information. The writer giving his/her effort to set every word into enjoyment arrangement in writing Machine Learning With R Cookbook - 110 Recipes for Building Powerful Predictive Models with R however doesn't forget the main position, giving the reader the hottest as well as based confirm resource information that maybe you can be one of it. This great information can easily drawn you into brand-new stage of crucial thinking.

Mae Bushee:

Don't be worry when you are afraid that this book may filled the space in your house, you may have it in e-book means, more simple and reachable. This specific Machine Learning With R Cookbook - 110 Recipes for Building Powerful Predictive Models with R can give you a lot of buddies because by you investigating this one book you have thing that they don't and make an individual more like an interesting person. That book can be one of one step for you to get success. This book offer you information that probably your friend doesn't recognize, by knowing more than various other make you to be great men and women. So , why hesitate? Let me have Machine Learning With R Cookbook - 110 Recipes for Building Powerful Predictive Models with R.
