Exploring Human Geography: A Reader (Arnold Readers in Geography)

Exploring Human Geography: A Reader (Arnold Readers in Geography)

A lively and stimulating resource for all 1st year students of human geography, this introductory Reader comprises key published writings from the main fields of human geography. Because the subject is both broad and necessarily only loosely defined, a principal aim of this book is to present a view of the subject which is theoretically informed and yet recognises that any view is partial, contingent and subject to change.

The extracts selected are accessible and raise issues of method and theory as well as fact. The editors have chosen articles that not only represent main currents in the present flow of academic geography but which are also responsive to developments outside of the discipline. Their selection contains a mixture of established and recent writings and each section features a contextualizing introduction and detailed suggestions for further reading.
