Parent's Guide for Multiplication Tables: memorize Times Tables using ONE basic strategy (Math Education Help from www.learnandenjoy.com Book 2) Danny Demeersseman

Teach your kids the **multiplication tables**. Great math method for parents en teachers.

36 basic facts are distributed over 6 T-Shirts to memorize the Times Tables.

We use a **fixed protocol with limited strategies**:

- we only learn 36 basic facts.
- always place the smallest number in front (so 7×4 becomes 4×7).
- use the halve/double strategy when the first number is even ($4 \times 7 = 28$ because $2 \times 7 = 14$ and 28 is double of 14).
- use one less/one time more strategy when first number is odd ($3 \times 7 = 21$ because $2 \times 7 = 14$ and 21 is one group more than 14).

Using ONE main strategy gives children more grip to learn the times tables smoothly!
