Using the Experience API to Track Learning (Infoline Tips, Tools, & Intelligence for Training, April 2013) John Delano, Ali Shahrazad

The Experience API (xAPI) is an update to SCORM (Sharable Content Object Reference Model) that allows the capture of a wide range of learning activities. With the xAPI, you are now able to track learning that happens anywhere at any time, including mobile learning, social learning, games, virtual worlds, even learning that happens offline. This Infoline will introduce you to the xAPI and show you how you can begin to implement it in your organization.
