Model Systems in Behavioral Ecology: Integrating Conceptual, Theoretical, and Empirical Approaches.

Model Systems in Behavioral Ecology: Integrating Conceptual, Theoretical, and Empirical Approaches.

A key way that behavioral ecologists develop general theories of animal behavior is by studying one species or a closely related group of species--"model systems"--over a long period. This book brings together some of the field's most respected researchers to describe why they chose their systems, how they integrate theoretical, conceptual, and empirical work, lessons for the practice of the discipline, and potential avenues of future research. Their model systems encompass a wide range of animals and behavioral issues, from dung flies to sticklebacks, dolphins to African wild dogs, from foraging to aggression, territoriality to reproductive suppression.

Model Systems in Behavioral Ecology offers an unprecedented "systems" focus and revealing insights into the confluence of personal curiosity and scientific inquiry. It will be an invaluable text for behavioral ecology courses and a helpful overview--and a preview of coming developments--for advanced researchers. The twenty-five chapters are divided into four sections: insects and arachnids, amphibians and reptiles, birds, and mammals.

In addition to the editor, the contributors include Geoff A. Parker, Thomas D. Seeley, Naomi Pierce, Kern Reeve, Gerald S. Wilkinson, Bert Hölldobler and Flavio Roces, George W. Uetz, Michael J. Ryan and Gil Rosenthal, Judy Stamps, H. Carl Gerhardt, Barry Sinervo, Robert Warner, Manfred Milinski, David F. Westneat, Alan C. Kamil and Alan B. Bond, Paul Sherman, Jerram L. Brown, Anders Pape Møller, Marc Bekoff, Richard C. Connor, Joan B. Silk, Christopher Boesch, Scott Creel, A.H. Harcourt, and Tim Caro and M. J. Kelly.

From reader reviews:

Zachary Foushee:

Do you have favorite book? In case you have, what is your favorite's book? Guide is very important thing for us to be aware of everything in the world. Each book has different aim or goal; it means that guide has different type. Some people sense enjoy to spend their time for you to read a book. They are reading whatever they acquire because their hobby is definitely reading a book. Think about the person who don't like reading through a book? Sometime, man feel need book after they found difficult problem or perhaps exercise. Well, probably you'll have this Model Systems in Behavioral Ecology: Integrating Conceptual, Theoretical, and Empirical Approaches..

Lester Gibbons:

The particular book Model Systems in Behavioral Ecology: Integrating Conceptual, Theoretical, and Empirical Approaches. will bring one to the new experience of reading some sort of book. The author style to clarify the idea is very unique. In the event you try to find new book to study, this book very acceptable to you. The book Model Systems in Behavioral Ecology: Integrating Conceptual, Theoretical, and Empirical Approaches. is much recommended to you to learn. You can also get the e-book in the official web site, so you can easier to read the book.

Jimmy Dolce:

The particular book Model Systems in Behavioral Ecology: Integrating Conceptual, Theoretical, and Empirical Approaches. has a lot associated with on it. So when you make sure to read this book you can get a lot of profit. The book was authored by the very famous author. The writer makes some research just before write this book. This kind of book very easy to read you can find the point easily after scanning this book.

Daryl Sanders:

Guide is one of source of expertise. We can add our knowledge from it. Not only for students but native or citizen require book to know the revise information of year to year. As we know those textbooks have many advantages. Beside we all add our knowledge, can bring us to around the world. With the book Model Systems in Behavioral Ecology: Integrating Conceptual, Theoretical, and Empirical Approaches. we can have more advantage. Don't someone to be creative people? To be creative person must love to read a book. Simply choose the best book that acceptable with your aim. Don't end up being doubt to change your life by this book Model Systems in Behavioral Ecology: Integrating Conceptual, Theoretical, and Empirical Approaches.. You can more inviting than now.
