"With his control over the Executive and Judicial branches of the government, the stage is set for a complete take-over of the government ...Obama has purposely escalated economic crisis...[with] a number of programs that are designed to go into effect in January 2013...[It] will be enough to cause the final economic collapse of the country. As soon as that happens, Obama declares Martial Law and assumes dictatorial control of the nation."Michael Savage,Talk Show Host

Banks were given "3-6 months" notice by federal regulators of possible collapse, "emphasizing banks could not count on government help ." Chicago Tribune, August 10, 2012.

TruNews Radio investigator Doug Hagmann said high-level, reliable sources told him the U.S. Department of Homeland Security (DHS) is preparing for "massive civil war" in America. "Folks, we're getting ready for one massive economic collapse. "

Add 450 million rounds of hollow point ammo to the equation via DHS, and you have nothing less than a recipe for massive bloodshed across America...

Congresswoman Kay Granger's newsletter:

"President Obama issued an Executive Order that you should know about. This order gives an unprecedented level of authority to the President and the federal government to take over all the fundamental parts of our economy [even] force U.S. citizens to fulfill "labor requirements" for the purposes of "national defense."

This Book is Dedicated to the Victims...

The victims of medical care masquerading as healthcare, which I also participated in.

The victims of an educational system that loads the mind with knowledge as it crowds out wisdom.

The victims of a dysfunctional family upbringing that most of us experienced.

The victims of our welfare system that makes half our country dependent on taxes from the other half.

The victims of our justice system causing the highest prison population per capita of any nation,

The victims of religious teaching that pits us against others while failing to see the love of God for all mankind and His wise provision seen in Scripture.

The victims of mainstream media who think that everything is going to be all right.

The victims of banking policies that have destroyed the economy.

The victims of politicians who promise great things but vote for more government spending, and the end of America as we've known it.

Survival Options

There are millions of good people, the silent majority who work hard and have high values, who struggle with heavy burdens and who are about to become victims of a social tsunami that bad government has caused.

How to stay out of harm's way and survive begs an understanding of more than the evening news or anything learned in school. And I didn't learn how to write in school, so bear with me, the concepts are true.

Please invite your friends to join you in a journey toward freedom as we consider what's coming.
