Combat silent inflammation -- the most serious health threat you never heard of

Heart disease is the #1 killer of Americans.

Cancer is the #1 fear of Americans.

Dementia is the #1 concern of Americans.

What do these devastating illnesses have in common? All three have been linked to silent inflammation, a condition that occurs when the body's natural immune response goes awry. Silent inflammation attacks the heart, arteries, and even the brain -- and you will not even know it. Obesity is the primary cause of silent inflammation and excess body fat is causing today's epidemic rise in countless health threats.

Now Dr. Barry Sears shows you how to combat silent inflammation in this comprehensive guide. His research shows that following the Zone dietary plan, including supplements of ultrarefined fish oil concentrates, is the best way to ensure the future of your health. Follow this plan and enjoy these benefits:

- Greater longevity
- Reduced symptoms of chronic diseases
