The Canadian Experience of the Great War: A Guide to Memoirs Brian Douglas Tennyson

Although the United States did not enter the First World War until April 1917, Canada enlisted the moment Great Britain engaged in the conflict in August 1914. The Canadian contribution was great, as more than 600,000 men and women served in the war effort—400,000 of them overseas—out of a population of 8 million. More than 150,000 were wounded and nearly 67,000 gave their lives. The war was a pivotal turning point in the history of the modern world, and its mindless slaughter shattered a generation and destroyed seemingly secure values. The literature that the First World War generated, and continues to generate so many years later, is enormous and addresses a multitude of cultural and social matters in the history of Canada and the war itself.

Although many scholars have brilliantly analyzed the literature of the war, little has been done to catalog the writings of ordinary participants: men and women who served in the war and wrote about it but are not included among well-known poets, novelists, and memoirists. Indeed, we don't even know how many titles these people published, nor do we know how many more titles were added later by relatives who considered the recollections or collected letters worthy of publication. Brian Douglas Tennyson's *The Canadian Experience of the Great War: A Guide to Memoirs* is the first attempt to identify all of the published accounts of First World War experiences by Canadian veterans.
