Applied Mathematics in Integrated Navigation Systems, Third Edition (AIAA Education) Robert M. Rogers

"The subject of integrated navigation systems covered in this book is designed for those directly involved with the design, integration, and test and evaluation of navigation systems. It is assumed that the reader has a background in mathematics, including calculus. Integrated navigation systems are the combination of an onboard navigation solution (position, velocity, and attitude) and independent navigation data (aids to navigation) to update or correct navigation solutions. In this book, this combination is accomplished with Kalman filter algorithms.

This presentation is segmented into two parts. In the first part, elements of basic mathematics, kinematics, equations describing navigation systems/sensors and their error models, aids to navigation, and Kalman filtering are developed. Detailed derivations are presented and examples are given to aid in the understanding of these elements of integrated navigation systems. Problems are included to expand the application of the materials presented.

The third edition includes additional background material, exercises and software. The added material includes: development of general form for Earth's gravitational potential with simplification to an ellipsoid model; development of satellite orbital equations for position and velocity and the impact of non-spherical earth gravitation on satellite orbital parameters; and illustrations in the development of derivative free Kalman filters including the Unscented and Divided Difference filter forms. Additional exercises are included that expand and supplement the material in the text and demonstrate properties of the Kalman filter. Additional software is included in this edition for simulating random processes and derivative free filter implementations.

This edition provides a more complete foundation for addressing the different aspects of integrated navigation systems."

From reader reviews:

James Donovan:

The particular book Applied Mathematics in Integrated Navigation Systems, Third Edition (AIAA Education) will bring you to the new experience of reading some sort of book. The author style to explain the idea is very unique. In the event you try to find new book to read, this book very acceptable to you. The book Applied Mathematics in Integrated Navigation Systems, Third Edition (AIAA Education) is much recommended to you to learn. You can also get the e-book from official web site, so you can quicker to read the book.

Andrew Waite:

The book untitled Applied Mathematics in Integrated Navigation Systems, Third Edition (AIAA Education) contain a lot of information on this. The writer explains her idea with easy method. The language is very straightforward all the people, so do not necessarily worry, you can easy to read this. The book was compiled by famous author. The author gives you in the new era of literary works. It is possible to read this book because you can keep reading your smart phone, or program, so you can read the book inside anywhere and anytime. In a situation you wish to purchase the e-book, you can open their official web-site as well as order it. Have a nice read.

Jeffrey Call:

A lot of book has printed but it takes a different approach. You can get it by internet on social media. You can choose the most beneficial book for you, science, comedian, novel, or whatever by means of searching from it. It is named of book Applied Mathematics in Integrated Navigation Systems, Third Edition (AIAA Education). You can contribute your knowledge by it. Without making the printed book, it may add your knowledge and make you actually happier to read. It is most critical that, you must aware about publication. It can bring you from one destination for a other place.

Rose Engle:

A number of people said that they feel bored when they reading a publication. They are directly felt this when they get a half parts of the book. You can choose the book Applied Mathematics in Integrated Navigation Systems, Third Edition (AIAA Education) to make your personal reading is interesting. Your own skill of reading expertise is developing when you like reading. Try to choose straightforward book to make you enjoy you just read it and mingle the impression about book and reading especially. It is to be initially opinion for you to like to available a book and go through it. Beside that the reserve Applied Mathematics in Integrated Navigation Systems, Third Edition (AIAA Education) can to be your friend when you're feel alone and confuse in what must you're doing of the time.
