Oil Painting Lessons with Rembrandt and 'Calcite Sun Oil': Artist's Health and Safety without Hazardous Solvents Resins Varnishes and Driers Louis R. Velasquez

For the first time in modern history, Oil Painting, can be taught without any HAZARDOUS Solvents, Resins, Varnishes or Driers. This NEW yet ancient method is based on modern scientific findings. In 1988, science proved Rembrandt, Rubens, Velazquez and others mixed Calcium Carbonate Chalk/Calcite with their Superior oil. In 2000, Louis created 'Calcite Sun Oil' as a modern equivalent of the Old Masters' mixture.

Modern science also found EMULSIONS in their paint to achieve extraordinary effects. Louis created three Emulsions that are non-hazardous, permanent, easy to make, and provide masterful control of the oil paint. Included are instructions on the new 'AIR PUMP LINSEED OIL' that dries within 14 hours. Also included is Louis' revolutionary new oil paint, 'MILK OIL PAINT' . This is a true oil paint, not a Tempera. His CSO Egg Tempera is the first major advancement of Cennini's Renaissance formula. Here in ONE volume are the collected writings of Louis' tests, developments and creations over the past 12 years.

Please view the Author's Website [calcitesunoil.com] for newest updates, and promotional free DVD. This book is for Advanced and Professional artists. Available in Print and Kimble.
