Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science)

On behalf of the Program Committee, it is our pleasure to present the proceedings of the 12th International Symposium on Recent Advances in Intrusion Detection systems (RAID 2009), which took place in Saint-Malo, France, during September 23–25. As in the past, the symposium brought together leading researchers and practitioners from academia, government, and industry to discuss intrusion detection research and practice. There were six main sessions presenting full research papers on anomaly and specification-based approaches, malware detection and prevention, network and host intrusion detection and prevention, intrusion detection for mobile devices, and high-performance intrusion detection. Furthermore, there was a poster session on emerging research areas and case studies. The RAID 2009 Program Committee received 59 full paper submissions from all over the world. All submissions were carefully reviewed by independent reviewers on the basis of space, topic, technical assessment, and overall balance. The final selection took place at the Program Committee meeting on May 21 in Oakland, California. In all, 17 papers were selected for presentation and publication in the conference proceedings. As a continued feature, the symposium accepted submissions for poster presentations which have been published as extended abstracts, reporting early-stage research, demonstration of applications, or case studies. Thirty posters were submitted for a numerical review by an independent, three-person sub-committee of the Program Committee based on novelty, description, and evaluation. The sub-committee recommended the acceptance of 16 of these posters for presentation and publication. The success of RAID 2009 depended on the joint effort of many people.

From reader reviews:

Jarred Chisolm:

As people who live in the modest era should be update about what going on or data even knowledge to make all of them keep up with the era which is always change and move ahead. Some of you maybe will update themselves by reading books. It is a good choice in your case but the problems coming to anyone is you don't know which you should start with. This Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science) is our recommendation to cause you to keep up with the world. Why, because this book serves what you want and wish in this era.

Samuel Gorman:

This Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science) tend to be reliable for you who want to become a successful person, why. The reason why of this Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science) can be on the list of great books you must have is giving you more than just simple examining food but feed anyone with information that perhaps will shock your preceding knowledge. This book is actually handy, you can bring it everywhere and whenever your conditions throughout the e-book and printed types. Beside that this Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science) giving you an enormous of experience for instance rich vocabulary, giving you demo of critical thinking that we understand it useful in your day task. So , let's have it and enjoy reading.

Jonathan Sanders:

Spent a free a chance to be fun activity to complete! A lot of people spent their sparetime with their family, or their friends. Usually they performing activity like watching television, going to beach, or picnic inside the park. They actually doing same thing every week. Do you feel it? Do you want to something different to fill your own personal free time/ holiday? Can be reading a book could be option to fill your free time/ holiday. The first thing that you'll ask may be what kinds of publication that you should read. If you want to attempt look for book, may be the book untitled Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science) can be good book to read. May be it might be best activity to you.

William Powers:

Do you like reading a guide? Confuse to looking for your best book? Or your book has been rare? Why so

many concern for the book? But just about any people feel that they enjoy intended for reading. Some people likes reading, not only science book but novel and Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science) or perhaps others sources were given know-how for you. After you know how the fantastic a book, you feel want to read more and more. Science guide was created for teacher as well as students especially. Those textbooks are helping them to increase their knowledge. In some other case, beside science guide, any other book likes Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science) to make your spare time considerably more colorful. Many types of book like here.
