## **Technical Java: Applications for Science and Engineering** Grant Palmer

Advanced Java for Engineers and Scientists gives the reader all the information needed to use Java to create powerful, versatile, and flexible scientific and engineering applications. The book is full of practical example problems and valuable tips. Grant Palmer, a research scientist himself, goes in-depth into advanced technical programming concepts applicable to scientific-oriented applications, such as solving differential equations, data modeling, integration of functions, and creating generic class libraries. The last section of the book shows readers how Java can be used to develop GUI or Web-based front-ends to scientific or engineering programs.
