Environment and You, The, Books a la Carte Edition (2nd Edition) Norman Christensen, Lissa Leege

NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value—this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

Inspiring Students to Explore New Frontiers and Local Solutions

The Environment and You, Second Edition, by Norm Christensen and new co-author Lissa Leege, gives today's generation of students reason to be hopeful about environmental challenges by emphasizing the role that science plays in environmental problem solving and solutions. The text offers a solid foundation in the science and demonstrates the role that science can play in influencing personal, community and global environmental issues. The new edition has added New Frontiers discussions that emphasize the interaction between new scientific discoveries, ethics, and policy; and Where You Live activities that invite students to use primary data sources to explore environmental principles and issues in their local community. A new chapter organization also improves connections between chapters and integrates key concepts with relevant environmental issues.

The textbook is closely integrated with **MasteringEnvironmentalScience** to support instructors and students using a wide variety of engaging assignments that incorporate videos, current events, and interactive activities.

Also Available with MasteringEnvironmentalScience

MasteringEnvironmentalScience is an online homework, tutorial, and assessment system that improves results by helping students quickly master concepts both in and outside the classroom.

MasteringEnvironmentalScience incorporates activities to help your students arrive better prepared for class discussions and more. The book and Mastering program create a classroom experience that makes teaching and learning more efficient and enjoyable.

Students, if interested in purchasing this title with MasteringEnvironmentalScience, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.
