Makin' Numbers: Howard Aiken and the Computer (History of Computing)

Makin' Numbers: Howard Aiken and the Computer (History of Computing)

with the cooperation of Robert V. D. Campbell This collection of technical essays and reminiscences is a companion volume to I. Bernard Cohen's biography, *Howard Aiken: Portrait of a Computer Pioneer*. After an overview by Cohen, Part I presents the first complete publication of Aiken's 1937 proposal for an automatic calculating machine, which was later realized as the Mark I, as well as recollections of Aiken's first two machines by the chief engineer in charge of construction of Mark II, Robert Campbell, and the principal programmer of Mark I, Richard Bloch. Henry Tropp describes Aiken's hostility to the exclusive use of binary numbers in computational systems and his alternative approach. Part II contains essays on Aiken's administrative and teaching styles by former students Frederick Brooks and Peter Calingaert and an essay by Gregory Welch on the difficulties Aiken faced in establishing a computer science program at Harvard. Part III contains recollections by people who worked or studied with Aiken, including Richard Bloch, Grace Hopper, Anthony Oettinger, and Maurice Wilkes. Henry Tropp provides excerpts from an interview conducted just before Aiken's death. Part IV gathers the most significant of Aiken's own writings. The appendixes give the specs of Aiken's machines and list his doctoral students and the topics of their dissertations.

From reader reviews:

Robert Jones:

The book Makin' Numbers: Howard Aiken and the Computer (History of Computing) give you a sense of feeling enjoy for your spare time. You can utilize to make your capable far more increase. Book can to get your best friend when you getting tension or having big problem using your subject. If you can make studying a book Makin' Numbers: Howard Aiken and the Computer (History of Computing) for being your habit, you can get much more advantages, like add your personal capable, increase your knowledge about a number of or all subjects. You are able to know everything if you like wide open and read a e-book Makin' Numbers: Howard Aiken and the Computer (History of Computing). Kinds of book are several. It means that, science reserve or encyclopedia or other folks. So , how do you think about this publication?

Jason Villalobos:

As people who live in the particular modest era should be change about what going on or details even knowledge to make them keep up with the era and that is always change and advance. Some of you maybe will probably update themselves by examining books. It is a good choice to suit your needs but the problems coming to anyone is you don't know what one you should start with. This Makin' Numbers: Howard Aiken and the Computer (History of Computing) is our recommendation to help you keep up with the world. Why, since this book serves what you want and need in this era.

Sharon Bufkin:

Typically the book Makin' Numbers: Howard Aiken and the Computer (History of Computing) has a lot of knowledge on it. So when you check out this book you can get a lot of profit. The book was authored by the very famous author. The author makes some research ahead of write this book. This particular book very easy to read you can find the point easily after scanning this book.

Betty Dunham:

A lot of people said that they feel uninterested when they reading a e-book. They are directly felt this when they get a half portions of the book. You can choose often the book Makin' Numbers: Howard Aiken and the Computer (History of Computing) to make your personal reading is interesting. Your own skill of reading talent is developing when you similar to reading. Try to choose simple book to make you enjoy to study it and mingle the sensation about book and looking at especially. It is to be initially opinion for you to like to open up a book and learn it. Beside that the reserve Makin' Numbers: Howard Aiken and the Computer (History of Computing) can to be a newly purchased friend when you're truly feel alone and confuse with what must you're doing of that time.
