There have been hundreds of relationship books written, so why do we need another one? Well, let me give you at least four reasons why The Singles Playbook is different. First, the #1 goal in the game of love is not to get the guy, or get the girl, but to "not get hurt." The Singles Playbook is primarily filled with strategies and information to help you avoid getting played and suckered in the world of romance and dating. Second, unlike other relationship books, The Singles Playbook combines common sense notions about how to find love, with faith based principles on the subject. Some the intricacies and nuances of a romantic relationship between a man and a woman are beyond any human understanding, no matter how many educational degrees a person may have. That's why in those tricky areas I defer to a higher authority; namely: The Bible. Third The Singles Playbook is different from other books on this subject is because it teaches and explains a critical concept that I refer to as The Four Stages of a Relationship. You see, finding true love requires an understanding of the entire relationship process leading up to marriage. If one or both parties omits or jumps over a stage in the process, the relationship is doomed to fail. Finally, this writing is really two books in one because at the end of The Singles Playbook you will find 365 relationship tips for every day of the year. The daily relationship tips will help to keep you focused and on track in your quest to find love long after you've finished reading this book. All of these attributes clearly establish the fact that The Singles Playbook is unlike any relationship book on the market today. In fact, The Singles Playbook is one of the most comprehensive books ever written on the subject of relationships and dating. It is destined to be the number one reference guide for singles looking for love in America.
