Evernote In 90 Minutes Or Less: Declutter and organize your life by going completely paperless (Life Hacks Book 1) Ryan Stevens

The “Evernote” phenomenon is growing fast, just like Facebook, just like other viral applications, software, or websites.

Who is this book for?

If you are 20 years old, you already use the app a lot and you are advanced in computers and technology, you may find this too easy and probably useless.

I created this book mainly for people who don't know anything about Evernote or for those who are just basic users – people who just write down a few notes without taking advantage of the real potential of the application.

This application is truly unique. It has the power to change your life, and like other heavy users say, the more you use it, the more you get out of it.

Not only can you find unlimited ways of using this app for de-cluttering and organizing your life, but while you do that, developers will also find more ways to improve it and add more features to it.
