A virus has infected the Arlington, Virginia, home of the NERDS headquarters, and it's much worse than your run-of-the-mill flu. Instead of coughing and sneezing, the victims of this voracious virus are transformed into superintelligent criminal masterminds. Soon nearly everyone--including some of the NERDS team--is plotting to take over the world. With more people breaking out into evil cackles every day, it's up to Flinch, the hyperactive superspy with a sweet tooth, to stop the virus. Flinch will have to miniaturize himself and take a fantastic voyage through supervillain Heathcliff's body to fight white blood cells, stomach acid, and a nest of nasty nanobytes in the hope that he can save the world from the Villain Virus.
